

**MILITARY EXERCISE ENGLISH PREPARATION
ACADEMIC AFFAIRS DIVISION
ROYAL THAI NAVY MEDICAL DEPARTMENT**

BACKGROUND AND OBJECTIVES

Military exercises are important tools through which each service tests and validates its concepts, procedures, systems and tactics. More broadly, they enable militaries and civilian organizations, deployed in theatres of operations, to test capabilities and practice working together efficiently in a demanding crisis situation. Today, English, the official working language of the Association of Southeast Asian Nations (ASEAN), is a common lingua franca across the globe and is used as a means of communication in all international exercises.

Military Exercise English Preparation Course will prepare students for their future military exercise participation by providing them with certain practices they are expected to encounter during the exercise.

OUTCOMES

Upon completion of the course students should be better equipped with the language proficiency they need to take part in international exercises. They will learn to understand the different types of military exercises, particularly those in which the Royal Thai Navy participate. The course aims to focus on developing the ability to communicate in the language used in a military environment as well as providing the option to focus on specific areas such as Humanitarian Assistance and Disaster Relief (HADR).

VENUE / DURATION

Academic Affairs Division, RTNMD / 30 hours

Course 1 (Cobra Gold Preparation): 21-31 January 2019
